Aqueous Double
& Single Wall Hot Cups

Aqueous Double Wall Hot Cup

With a sturdy, double wall insulation, this is the ideal takeaway cup for hot drinks. This innovative cup is made from renewable, unbleached, kraft brown paper, with a unique water-based barrier coating. This eliminates the need for a separate plastic or bio-plastic inner lining. The solution is in your hands.

The Solution is in Your Hands

Made from Renewable Sources

The Forest Stewardship Council® (FSC®-C117930) is a global, not-for-profit organisation dedicated to the promotion of responsible forest management. FSC® promotes environmentally appropriate, socially beneficial, and economically viable management of the world's forests.

Look for our FSC®-certified products.

Compostable in Industrial Facilities

Compostable products will breakdown into nutrient-rich organic matter which can be used as a fertiliser for plants.

These Sustain cups, along with their accompanying Pulp and PLA lids, are compostable in industrial facilities so will breakdown under specific conditions.

Unique Water-Based Barrier Coating

Sustain Aqueous Cups have a unique water-based barrier coating that allows the cup to maintain its structural integrity when holding liquid and eliminates the need for a separate plastic or bio-plastic inner lining.

These cups have been rated "Recyclable" based on testing in accordance with PTS Method PTS-RH:021-97. Kerbside recyclability in Australia and New Zealand is pending APCO review. Check with your local council to confirm whether they can accept these cups for recycling.
