

# DISPOSABLE MICROFIBRE SYSTEM

New & Improved

**DON'T JUST KILL MICROBES.**

**REMOVE THEM.**

Break the chain of infection.

**BREAK THE CHAIN OF  
INFECTION WITH THE  
HIGHEST QUALITY CLEAN**

**REMOVES 99.99% OF  
HUMAN CORONAVIRUS OC43\***

With water only to help improve cleaning efficacy.

**SUPERIOR CLEANING  
PERFORMANCE**

New mop pads have up to 2x more cleaning coverage.

**COMPATIBLE WITH  
COMMON DISINFECTANTS**

Including Quat (does not bind), Chlorine Bleach and Hydrogen Peroxide.

**HELPS REDUCE  
CROSS-CONTAMINATION**

Use colour-coded microfibre for each area or task.

	 <b>Human Coronavirus OC43*</b>	 <b>Methicillin-resistant Staphylococcus aureus MRSA</b>	 <b>Clostridioides difficile C.diff</b>	 <b>Pseudomonas aeruginosa Pseudo</b>	 <b>Feline Calicivirus Surrogate for Norovirus</b>
<b>PADS</b>	<b>99.99%</b>	<b>99.97%</b>	<b>99.97%</b>	<b>99.99%</b>	<b>99.97%</b>
<b>CLOTHS</b>	<b>99.99%</b>	<b>99.96%</b>	<b>99.79%</b>	<b>99.95%</b>	<b>99.97%</b>

Percentages shown relate to removal of the viruses and bacteria from vinyl composition tile surfaces.

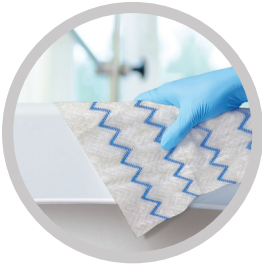

\*Based on third party testing with water only on VCT surface. Not tested on Covid-19.

# DISPOSABLE MICROFIBRE SYSTEM

The HYGEN™ Disposable Microfibre System combines superior microfibre cleaning in a disposable application to prevent cross-transmission.

New HYGEN™ Disposable Microfibre Mop Pads have up to 2x more increased cleaning coverage vs. previous Rubbermaid Disposable Microfibre Mop Pads.

New HYGEN™ Disposable Microfibre Cloths have up to 50% more increased cleaning coverage vs. previous Rubbermaid Disposable Microfibre Cloths.

The HYGEN™ Disposable Microfibre Cloths and Mops are colour-coded to help prevent the risk of cross-contamination as each colour is assigned to a different area or task.

## BUILT-IN SCRUBBERS

Innovative microbe removing technology is complemented with built-in zigzag scrubbers.

## DID YOU KNOW?

What is the difference between **KILLING** microbes & **REMOVING** microbes?

Are tables & surfaces as smooth as they look?

Disinfectants based on quats, alcohol, bleach and hydrogen peroxide solutions, when used with paper towel or an ordinary cloth, may **kill** microbes, however, do leave dead microbes on the surface.

**HYGEN™ Disposable Microfibre physically removes 99.99% of Human Coronavirus OC43\*** (not tested on Covid-19) **on vinyl composition tile surfaces.**

Under the microscope, you will see that surfaces have very fine grooves and crevices not visible to the naked eye. These crevices are used as breeding grounds by microorganisms. It is important to use cleaning tools that are fine enough to get into these very fine spaces.

\*Based on third party testing with water only on VCT surface. Not tested on Covid-19.
