OEKO-TEX®
CONFIDENCE IN TEXTILES
STANDARD 100

Product Description

Abri-Fix Net is a unisex thin mesh fixation pant for institutional application. It is a cost-effective model for multiple use. Mesh knit technology is based on warp knitting, a method where the yarn is knitted in zig-zag stitches along the length of the fabric. Abri-Fix Net pants feature vertical stabilising zones, ideal for holding larger pads securely in place. Despite the light construction mesh products are durable in wear and care situations. Abri-Fix Net pants have colour coded waistbands, representing size for easy product identification. 87% polyester, 13% elastane

Instructions for use/application

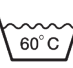

Abri-Fix Net should be worn as part of the 2 piece absorbent incontinence solution, for fixation of an incontinence pad. Fixation pants are wider at the crotch area and more elastic than normal underwear. This way they are making everyday-life easier by providing high comfort and security.
